HEALING MUSIC

HEALING MUSIC

MeV's Music is a non profit association dedicated to humanizing healthcare environments through live music, improving the hospital experience for patients, families, and medical staff. We are leaders in integrating music into healthcare, influencing medical protocols and public health policies. Through education, research, employment, and volunteering, we promote the use of music for therapeutic purposes.

Since 2012, we have worked in more than 20 hospitals in the Community of Madrid, in collaboration with the Madrid Health Service. After signing an agreement with the Catalan Health Institute, we began expanding into Catalonia, and we are currently operating in hospitals and care homes nationwide.
